

**VAN WERT COUNTY REGIONAL AIRPORT
AIRPORT AUTHORITY**

1400 Leeson Avenue
Van Wert, OH 45891
(419)-232-4500

49 CFR Part 26

Van Wert County Regional Airport
Disadvantaged Business Enterprise Program
Non-Primary FY 2020, 2021, 2022

POLICY STATEMENT

Section 26.1, 26.23 Objectives/Policy Statement

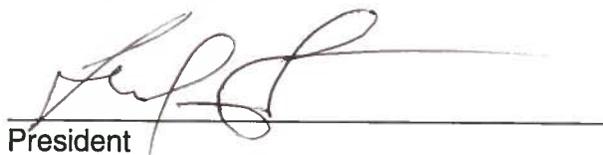

Van Wert County Airport Authority, owner of Van Wert County Airport, has established a Disadvantaged Business Enterprise (DBE) Program in accordance with regulations of the U.S. Department of Transportation (DOT), 49 CFR Part 26. Van Wert County Airport Authority has received Federal financial assistance from the Department of Transportation, and as a condition of receiving this assistance, Van Wert County Airport Authority has signed an assurance that it will comply with 49 CFR Part 26 (hereafter referred to as "Part 26").

It is the policy of the Van Wert County Airport Authority to ensure that DBEs as defined in Part 26, have an equal opportunity to receive and participate in DOT-assisted contracts. It is also Van Wert County Airport Authority policy to engage in the following actions on a continuing basis:

1. Ensure nondiscrimination in the award and administration of DOT- assisted contracts;
2. Create a level playing field on which DBEs can compete fairly for DOT-assisted contracts;
3. Ensure that the DBE Program is narrowly tailored in accordance with applicable law;
4. Ensure that only firms that fully meet 49 CFR Part 26 eligibility standards are permitted to participate as DBEs;
5. Help remove barriers to the participation of DBEs in DOT assisted contracts;
6. Promote the use of DBEs in all types of federally-assisted contracts and procurement activities;
7. Assist the development of firms that can compete successfully in the market place outside the DBE Program; and
8. Make appropriate use of the flexibility afforded to recipients of Federal financial assistance in establishing and providing opportunities for DBEs.

The airport manager has been delegated as the DBE Liaison Officer. In that capacity, the airport manager is responsible for implementing all aspects of the DBE program. Implementation of the DBE program is accorded the same priority as compliance with all other legal obligations incurred by the Van Wert County Airport Authority in its financial assistance agreements with the Department of Transportation.

Van Wert County Airport Authority has disseminated this policy statement to the Authority and all of the components of our organization. This statement has been distributed to DBE and non-DBE business communities that may perform work on Van Wert County Airport Authority DOT-assisted contracts. The distribution will be accomplished at any available opportunity that involves contractor interaction, i.e. pre-construction meetings.

President

5-14-19

Date

GENERAL REQUIREMENTS

Section 26.1 Objectives

The objectives are elaborated in the policy statement on the first page of this program.

Section 26.3 Applicability

Van Wert County Airport Authority is the recipient of Federal airport funds authorized by 49 U.S.C. 47101, *et seq.*

Section 26.5 Definitions

Van Wert County Airport Authority will use terms in this program that have their meanings defined in Part 26, §26.5.

Section 26.7 Non-discrimination Requirements

Van Wert County Airport Authority will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR Part 26 on the basis of race, color, sex, or national origin.

In administering its DBE program, Van Wert County Airport Authority will not, directly or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE program with respect to individuals of a particular race, color, sex, or national origin.

Section 26.11 Record Keeping Requirements

Reporting to DOT

Van Wert County Airport Authority will provide data about its DBE Program to the Department as directed by DOT operating administrations.

DBE participation will be reported to FAA as follows:

Van Wert County Airport Authority will transmit to FAA annually, by or before December 1, the information required for the "Uniform Report of DBE Awards or Commitments and Payments", as described in Appendix B to Part 26. Van Wert

County Airport Authority will similarly report the required information about participating DBE firms. All reporting will be done through the FAA official reporting system, or another format acceptable to FAA as instructed thereby.

Bidders List

Van Wert County Airport Authority will create and maintain a bidders list. The purpose of the list is to provide as accurate data as possible about the universe of DBE and non-DBE contractors and subcontractors who seek to work on Van Wert County Airport Authority DOT-assisted contracts, for use in helping to set overall goals. The bidders list will include the name, address, DBE and non-DBE status, age of firm, and annual gross receipts of firms.

This information will be collected per **ATTACHMENT 3**.

Section 26.13 Federal Financial Assistance Agreement

Van Wert County Airport Authority has signed the following assurances, applicable to all DOT-assisted contracts and their administration:

Assurance: - Each financial assistance agreement Van Wert County Airport Authority signs with a DOT operating administration (or a primary recipient) will include the following assurance:

The Van Wert County Airport Authority shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Van Wert County Airport Authority shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts. The Van Wert County Airport Authority DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Van Wert County Airport Authority of its failure to carry out its approved program, the Department may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 *et seq.*).

Contract Assurance: Van Wert County Airport Authority will ensure that the following clause is included in each DOT-funded contract it signs with a contractor (and each subcontract the prime contractor signs with a subcontractor):

The contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

- 1) Withholding monthly progress payments;
- 2) Assessing sanctions;
- 3) Liquidated damages; and/or
- 4) Disqualifying the contractor from future bidding as non-responsible.

ADMINISTRATIVE REQUIREMENTS

Section 26.21 DBE Program Updates

Van Wert County Airport Authority is required to have a DBE program meeting the requirements of this part as it will receive grants for airport planning or development and will award prime contracts, cumulative total value of which exceeds \$250,000 in FAA funds in a federal fiscal year. Van Wert County Airport Authority is not eligible to receive DOT financial assistance unless DOT has approved this DBE program and Van Wert County Airport Authority is in compliance with it and Part 26. Van Wert County Airport Authority will continue to carry out this program until all funds from DOT financial assistance have been expended. Van Wert County Airport Authority does not have to submit regular updates of the DBE program document, as long as it remains in compliance. However, significant changes in the program, including those required by regulatory updates, will be submitted for DOT approval.

Section 26.23 Policy Statement

The Policy Statement is elaborated on the first page of this DBE Program.

Section 26.25 DBE Liaison Officer (DBELO)

The following individual has been designated as the DBE Liaison Officer for Van Wert County Airport Authority:

Steve Bailey
Airport Manager
1400 Leeson Avenue
Van Wert, OH 45891
manager@vanwertcountyairport.org

In that capacity, the DBELO is responsible for implementing all aspects of the DBE program and ensuring that the Van Wert County Airport Authority complies with all provision of 49 CFR Part 26. The DBELO has direct, independent access to the Board President concerning DBE program matters. An organizational chart displaying the DBELO's position in the organization is included in **ATTACHMENT 2** to this program.

The DBELO is responsible for developing, implementing and monitoring the DBE program, in coordination with other appropriate officials. The DBELO has sufficient support staff including Board attorney and consultant to assist in the administration of the program. The duties and responsibilities include the following:

1. Gathers and reports statistical data and other information as required by DOT.
2. Reviews third party contracts and purchase requisitions for compliance with this program.
3. Works with all departments to set overall annual goals.
4. Ensures that bid notices and requests for proposals are available to DBEs in a timely manner.
5. Identifies contracts and procurements so that DBE goals are included in solicitations (both race-neutral methods and contract specific goals) and monitors results.
6. Analyzes Van Wert County Airport Authority progress toward attainment and identifies ways to improve progress.
7. Participates in pre-bid meetings.
8. Advises the CEO/governing body on DBE matters and achievement.
9. Determine contractor compliance with good faith efforts.
10. Plans and participates in DBE training seminars.
11. Provides outreach to DBEs and community organizations to advise them of opportunities.

Section 26.27 DBE Financial Institutions

It is the policy of the Van Wert County Airport Authority to investigate each 3-year cycle the full extent of services offered by financial institutions owned and controlled by socially and economically disadvantaged individuals in the community, to make reasonable efforts to use these institutions, and to encourage prime contractors on DOT-assisted contracts to make use of these institutions.

We have queried online whether any local DBE financial institutions exist, including reaching out to the local chamber and have found none.

Section 26.29 Prompt Payment Mechanisms

Van Wert County Airport Authority requires that all subcontractors performing work on DOT-assisted contracts shall be promptly paid for work performed pursuant to their agreements, in accordance with all relevant federal, state, and local law.

In accordance with 49 CFR §26.29, the Van Wert County Airport Authority established a contract clause implementing this requirement and requires prime contractors to pay subcontractors for satisfactory performance of their contracts no later than 30 days from the prime contractor's receipt of each payment from the Van Wert County Airport Authority.

Van Wert County Airport Authority ensures prompt and full payment of retainage from the prime contractor to the subcontractor within 30 days after the subcontractor's work is satisfactorily completed. Pursuant to §26.29, Van Wert County Airport Authority has selected the following method to comply with this requirement:

- Hold retainage from prime contractors and provide for prompt and regular incremental acceptances of portions of the prime contract, pay retainage to prime contractors based on these acceptances, and require a contract clause obligating the prime contractor to pay all retainage owed to the subcontractor for satisfactory completion of the accepted work within 30 days after your payment to the prime contractor.

To implement this measure, Van Wert County Airport Authority includes the following clause from FAA Advisory Circular 150/5370-10 in each DOT-assisted prime contract:

The Contractor is required to pay all subcontractors for satisfactory performance of their contracts no later than 30 days after the Contractor has received a partial payment. The Owner must ensure prompt and full payment of retainage from the prime Contractor to the subcontractor within 30 days after the subcontractor's work is satisfactorily completed. A subcontractor's work is satisfactorily completed when all the tasks called for in the subcontract have been accomplished and documented as required by the Owner. When the Owner has made an incremental acceptance of a portion of a prime contract, the work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed.

From the total of the amount determined to be payable on a partial payment, 5 percent of such total amount will be deducted and retained by the Owner until the final payment is made, except as may be provided (at the Contractor's option) in the subsection 90-08 titled PAYMENT OF WITHHELD FUNDS of this section. The balance – 95% of the amount payable, less all previous payments, shall be certified for payment. Should the Contractor exercise his or her option, as provided in the subsection 90-08 titled PAYMENT OF WITHHELD FUNDS of this section, no such percent retainage shall be deducted.

When at least 95% of the work has been completed, the Engineer shall, at the Owner's discretion and with the consent of the surety, prepare estimates of both the contract value and the cost of the remaining work to be done.

The Owner may retain an amount not less than twice the contract value or estimated cost, whichever is greater, of the work remaining to be done. The remainder, less all previous payments and deductions, will then be certified for payment to the Contractor.

Section 26.31 Directory

Van Wert County Airport Authority is a non-certifying member of the Ohio Unified Certification Program (UCP). The UCP maintains a directory identifying all firms eligible to participate as DBEs, which contains all the elements required by §26.31.

Section 26.33 Over-concentration

Van Wert County Airport Authority has not identified that over-concentration exists in the types of work that DBEs perform.

Section 26.35 Business Development Programs

Van Wert County Airport Authority has not established a Business Development Program.

Section 26.37 Monitoring Responsibilities

Van Wert County Airport Authority implements and carries out appropriate mechanisms to ensure compliance with 49 CFR Part 26 program requirements by all program participants, including prompt payment, and describes and set forth these mechanisms in Van Wert County Airport Authority DBE program.

Van Wert County Airport Authority actively monitors participation by maintaining a running tally of actual DBE attainments (e.g., payments actually made to DBE firms), including a means of comparing these attainments to commitments.

Monitoring Payments to DBEs and Non-DBEs

Van Wert County Airport Authority undertakes ongoing monitoring of prime payments to subcontractors over the course of any covered contract. Such monitoring activities will be accomplished through the following method(s):

1. We will bring to the attention of the Department of Transportation any false, fraudulent, or dishonest conduct in connection with the program, so that DOT can take the steps (e.g., referral to the Department of Justice for criminal prosecution,

referral to the DOT Inspector General, action under suspension and debarment or Program Fraud and Civil Penalties rules) provided in 26.107.

2. We will implement similar action under our own legal authorities, including responsibility determinations in future contracts. **ATTACHMENT 7** lists the regulation, provisions, and contract remedies available to us in the events of non-compliance with the DBE regulation by a participant in our DBE Program.
3. We will implement a monitoring and enforcement mechanism to ensure that work committed to DBEs at contract award or subsequently (i.e., as the result of modification to the contract) is actually performed by the DBEs to which the work was committed.
4. We will implement a monitoring and enforcement mechanism that will include written certification that we have reviewed contracting records and monitored work sites for this purpose. This will be accomplished by review of work orders, contracts, pay requests and job site visits.
5. We will implement a mechanism that will provide for a running tally of actual DBE attainments (e.g., payment actually made to DBE firms), including a means of comparing these attainments to commitments. In our reports of DBE participation to DOT, we will show both commitments and attainments, as required by the DOT uniform reporting form.

Van Wert County Airport Authority requires prime contractors to maintain records and documents of payments to subcontractors, including DBEs, for a minimum of three (3) years unless otherwise provided by applicable record retention requirements for the Van Wert County Airport Authority financial assistance agreement, whichever is longer. These records will be made available for inspection upon request by any authorized representative of Van Wert County Airport Authority or DOT. This reporting requirement extends to all subcontractors, both DBE and non-DBE.

- Van Wert County Airport Authority proactively reviews contract payments to subcontractors including DBEs quarterly. Payment reviews will evaluate whether the actual amount paid to DBE subcontractors is equivalent to the amounts reported to Van Wert County Airport Authority by the prime contractor.

Prompt Payment Dispute Resolution

Van Wert County Airport Authority will take the following steps to resolve disputes as to whether work has been satisfactorily completed for purposes of §26.29.

- During regular monthly progress meetings with all parties (at minimum staff, prime contractor, and consultant representatives) involved in aspects of the project, time will be allowed to identify any matters of dispute.

- Each representative will have authorization to bind their party with authority to take enforcement action.
- All matters shall be discussed and condensed in writing.
- The matter will be brought to the DBELO to determine next steps, i.e. seek advice of an appointed attorney and/or involve the Board.
- A clear next step will be determined as quickly as possible.

Van Wert County Airport Authority has established, as part of its DBE program, the following mechanism(s) to ensure prompt payment and return of retainage:

(1) Alternative dispute resolution (ADR)

- A contract clause that requires prime contractors to include in their subcontracts language providing that prime contractors and subcontractors will use appropriate alternative dispute resolution mechanisms to resolve payment disputes.

(2) A contract clause providing that the prime contractor will not be reimbursed for work performed by subcontractors unless and until the prime contractor ensures that the subcontractors are promptly paid for the work they have performed.

- A contract clause providing that the prime contractor will not be reimbursed for work performed by subcontractors unless and until the prime contractor ensures that the subcontractors are promptly paid for the work they have performed.

(3) Other mechanisms

- Other mechanisms, consistent with this part and applicable state and local law, to ensure that DBEs and other contractors are fully and promptly paid.

Prompt Payment Complaints

Complaints by subcontractors regarding the prompt payment requirements are handled according to the following procedure:

- Subcontractor should first attempt to bring the dispute to the attention of the prime in writing.

- If affected subcontractor is not comfortable contacting prime directly regarding payment or unable to resolve payment discrepancies with prime, subcontractor should contact DBELO in writing to initiate their complaint.
- If filing a prompt payment complaint with the DBELO does not result in timely and meaningful response by Van Wert County Airport Authority to resolve prompt payment disputes, affected subcontractor may contact the responsible FAA contact.
- Pursuant to Sec. 157 of the FAA Reauthorization Act of 2018, all complaints related to prompt payment will be reported in a format acceptable to the FAA, including the nature and origin of the complaint and its resolution.

Enforcement Actions for Noncompliance of Participants

Van Wert County Airport Authority will provide appropriate means to enforce the requirements of §26.29. These means include:

- In accordance with the contract, assessing liquidated damages against the prime contractor for each day beyond the required time period the prime contractor fails to pay the subcontractor
- Advise subcontractors of the availability of the payment and performance bond to assure payment for labor and materials in the execution of the work provided for in the contract
- Issue a stop-work order until payments are released to subcontractors, specifying in the contract that such orders constitute unauthorized delays for the purposes of calculating liquidated damages if milestones are not met
- Other penalties for failure to comply, up to and including contract termination.

Van Wert County Airport Authority will actively implement the enforcement actions detailed above.

Monitoring Contracts and Work Sites

Van Wert County Airport Authority reviews contracting records and engages in active monitoring of work sites to ensure that work committed to DBEs at contract award or subsequently (e.g., as the result of modification to the contract) is actually performed by the DBEs to which the work was committed. Work site monitoring is performed by DBELO/compliance team/project managers/consultant/etc. Contracting records are reviewed by DBELO/compliance team/project managers/consultant/etc. Van Wert County Airport Authority will maintain written certification that contracting records have been reviewed and work sites have been monitored for this purpose **ATTACHMENT 7.**

Section 26.39 Fostering small business participation

Van Wert County Airport Authority has created a Small Business element to structure contracting requirements to facilitate competition by small business concerns, taking all reasonable steps to eliminate obstacles to their participation, including unnecessary and unjustified bundling of contract requirements that may preclude small business participation in procurements as prime contractors or subcontractors.

The small business element is incorporated as **ATTACHMENT 9** to this DBE Program. The program elements will be actively implemented to foster small business participation. Implementation of the small business element is required in order for Van Wert County Airport Authority to be considered by DOT as implementing this DBE program in good faith.

SUBPART C – GOALS, GOOD FAITH EFFORTS, AND COUNTING

Section 26.43 Set-asides or Quotas

Van Wert County Airport Authority does not use quotas in any way in the administration of this DBE program.

Section 26.45 Overall Goals

Van Wert County Airport Authority will establish an overall DBE goal covering a three-year federal fiscal year period if it anticipates awarding DOT-funded prime contracts the cumulative total value of which exceeds \$250,000 in DOT funds during any one or more of the reporting fiscal years within the three-year goal period. In accordance with §26.45(f), Van Wert County Airport Authority will submit its Overall Three-year DBE Goal to FAA by August 1st of the year in which the goal is due, as required by the schedule established by and posted to the website of FAA.

https://www.faa.gov/about/office_org/headquarters_offices/aer/bus_ent_program/media/DBE%20and%20ACDBE%20Reporting%20Requirements%20for%20Airport%20Grant%20Recipients.pdf

The DBE goals will be established in accordance with the 2-step process as specified in 49 CFR Part 26.45. If Van Wert County Airport Authority does not anticipate awarding prime contracts the cumulative total value of which exceeds \$250,000 in DOT funds during any of the years within the three-year reporting period, an overall goal will not be developed. However, this DBE Program will remain in effect and Van Wert County Airport Authority will seek to fulfill the objectives outlined in 49 CFR Part 26.1.

Step 1. The first step is to determine a base figure for the relative availability of DBEs in the market area. Van Wert County Airport Authority will use Census Bureau Data as a method to determine the base figure. Van Wert County Airport Authority understands

that the exclusive use of a list of prequalified contractors or plan holders, or a bidders list that does not comply with the requirements of 49 CFR Part 26.45(c)(2), is not an acceptable alternative means of determining the availability of DBEs.

Step 2. The second step is to adjust, if necessary, the “base figure” percentage from Step 1 so that it reflects as accurately as possible the DBE participation the recipient would expect in the absence of discrimination. Adjustments may be made based on past participation, information from a disparity study (to the extent it is not already accounted for in the base goal), and/or information about barriers to entry to past competitiveness of DBEs on contracts. Van Wert County Airport Authority will examine all of the evidence available in its jurisdiction to determine what adjustment, if any, is needed. If the evidence does not suggest an adjustment is necessary, then no adjustment shall be made.

Any methodology selected will be based on demonstrable evidence of local market conditions and be designed to ultimately attain a goal that is rationally related to the relative availability of DBEs in the Van Wert County Airport Authority market.

In establishing the overall goal, Van Wert County Airport Authority will provide for consultation and publication. This includes consultation with minority, women’s and general contractor groups, community organizations, and other officials or organizations which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and the efforts by Van Wert County Airport Authority to establish a level playing field for the participation of DBEs. The consultation will include a scheduled, direct, interactive exchange (e.g., a face-to-face meeting, video conference, teleconference) with as many interested stakeholders as possible focused on obtaining information relevant to the goal setting process, and it will occur before Van Wert County Airport Authority is required to submit the goal methodology to the operating administration for review pursuant to §26.45(f). The goal submission will document the consultation process in which Van Wert County Airport Authority engaged. Notwithstanding paragraph (f)(4) of §26.45, the proposed goal will not be implemented until this requirement is met.

In addition to the consultation described above, Van Wert County Airport Authority will publish a notice announcing the proposed overall goal before submission to the FAA on August 1st. The notice will be posted on Van Wert County Airport Authority official internet web site and may be posted in other sources (e.g., minority-focused media, trade association publications). If the proposed goal changes following review by FAA, the revised goal will be posted on the official internet web site.

The public will also be informed that the proposed overall goal and its rationale are available for inspection during normal business hours at the principal office of Van Wert County Airport Authority. This notice will provide that the Van Wert County Airport Authority and FAA will accept comments on the goals for 30 days from the date of the

notice. Notice of the comment period will include the addresses to which comments may be sent (including offices and websites) where the proposal may be reviewed. **The public comment period will not extend the August 1st deadline.**

The Overall Three-Year DBE Goal submission to FAA will include a summary of information and comments received, if any, during this public participation process and Van Wert County Airport Authority responses.

Van Wert County Airport Authority will begin using the overall goal on October 1 of the relevant period, unless other instructions from FAA have been received.

Project Goals

If permitted or required by the FAA Administrator, an overall goal may be expressed as a percentage of funds for a particular grant or project or group of grants and/or projects, including entire projects. Like other overall goals, a project goal may be adjusted to reflect changed circumstances, with the concurrence of the appropriate operating administration. A project goal is an overall goal, and must meet all the substantive and procedural requirements of this section pertaining to overall goals. A project goal covers the entire length of the project to which it applies. The project goal will include a projection of the DBE participation anticipated to be obtained during each fiscal year covered by the project goal. The funds for the project to which the project goal pertains are separated from the base from which the regular overall goal, applicable to contracts not part of the project covered by a project goal, is calculated.

If a goal is established on a project basis, the goal will be used by the time of the first solicitation for a DOT-assisted contract for the project.

Prior Operating Administration Concurrence

Van Wert County Airport Authority understands that prior FAA concurrence with the overall goal is not required. However, if the FAA review suggests that the overall goal has not been correctly calculated or that the method employed by Van Wert County Airport Authority for calculating goals is inadequate, FAA may, after consulting with Van Wert County Airport Authority, adjust the overall goal or require that the goal be adjusted by Van Wert County Airport Authority. The adjusted overall goal is binding. In evaluating the adequacy or soundness of the methodology used to derive the overall goal, the U.S. DOT operating administration will be guided by the goal setting principles and best practices identified by the Department in guidance issued pursuant to §26.9.

A description of the methodology to calculate the overall goal and the goal calculations can be found in **ATTACHMENT 5** to this program.

Section 26.47 Failure to meet overall goals

Van Wert County Airport Authority cannot be penalized, or treated by the Department as being in noncompliance with Part 26, because DBE participation falls short of an overall goal, unless Van Wert County Airport Authority fails to administer its DBE program in good faith.

Van Wert County Airport Authority understands that to be considered to be in compliance with this part, an approved DBE Program and overall DBE goal, if applicable, must be maintained, and this DBE Program must be administered in good faith.

Van Wert County Airport Authority understands that if the awards and commitments shown on the Uniform Report of Awards or Commitments and Payments at the end of any fiscal year are less than the overall goal applicable to that fiscal year, the following actions must be taken in order to be regarded by the Department as implementing this DBE Program in good faith:

- (1) Analyze in detail the reasons for the difference between the overall goal and the awards and commitments in that fiscal year;
- (2) Establish specific steps and milestones to correct the problems identified in the analysis to enable the goal for the new fiscal year to be fully met;
- (3) Van Wert County Airport Authority will prepare, within 90 days of the end of the fiscal year, the analysis and corrective actions developed under paragraph (c)(1) and (2) of this section. We will retain copy of analysis and corrective actions in records for a minimum of three years, and will make it available to FAA upon request.

Section 26.51 Means Recipients Use to Meet Overall Goals

Breakout of Estimated Race-Neutral & Race-Conscious Participation

Van Wert County Airport Authority will meet the maximum feasible portion of its overall goal by using race-neutral means of facilitating race-neutral DBE participation. Race-neutral DBE participation includes any time a DBE wins a prime contract through customary competitive procurement procedures or is awarded a subcontract on a prime contract that does not carry a DBE contract goal.

Race-neutral means include, but are not limited to the following:

- (1) Arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate participation by

DBEs and other small businesses and by making contracts more accessible to small businesses, by means such as those provided under §26.39.

(2) Providing assistance in overcoming limitations such as inability to obtain bonding or financing (e.g., by such means as simplifying the bonding process, reducing bonding requirements, eliminating the impact of surety costs from bids, and providing services to help DBEs, and other small businesses, obtain bonding and financing);

(3) Providing technical assistance and other services;

(4) Carrying out information and communications programs on contracting procedures and specific contract opportunities (e.g., ensuring the inclusion of DBEs, and other small businesses, on recipient mailing lists for bidders; ensuring the dissemination to bidders on prime contracts of lists of potential subcontractors; provision of information in languages other than English, where appropriate);

(5) Implementing a supportive services program to develop and improve immediate and long-term business management, record keeping, and financial and accounting capability for DBEs and other small businesses;(6) Providing services to help DBEs, and other small businesses, improve long-term development, increase opportunities to participate in a variety of kinds of work, handle increasingly significant projects, and achieve eventual self-sufficiency;

(7) Establishing a program to assist new, start-up firms, particularly in fields in which DBE participation has historically been low;

(8) Ensuring distribution of the DBE directory, through print and electronic means, to the widest feasible universe of potential prime contractors; and

(9) Assisting DBEs, and other small businesses, to develop their capability to utilize emerging technology and conduct business through electronic media.

The breakout of estimated race-neutral and race-conscious participation can be found in **ATTACHMENT 5** to this program.

The Van Wert County Airport Authority will arrange solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate participation by DBEs and other small businesses and by making contracts more accessible to small businesses, by means such as those provided under §26.39.

Contract Goals

If the approved projection under paragraph (c) of §26.51 estimates that the entire overall goal for a given year can be met through race-neutral means, contract goals will not be set during that year, unless the use of contract goals becomes necessary in order to meet the overall goal.

Contract goals will be established only on those DOT-assisted contracts that have subcontracting possibilities. A contract goal need not be established on every such contract, and the size of contract goals will be adapted to the circumstances of each such contract (e.g., type and location of work, availability of DBEs to perform the particular type of work).

Contract goals will be expressed as a percentage of the Federal share of a DOT-assisted contract.

Section 26.53 Good Faith Efforts Procedures in Situations where there are Contract Goals

Demonstration of good faith efforts (pre-award)

In cases where a contract goal has been established, the contract in question will only be awarded to a bidder/offeror that has made good faith efforts to meet the contract goal. The bidder/offeror can demonstrate that it has made good faith efforts by either meeting the contract goal or documenting that it has made adequate good faith efforts to do so. Examples of good faith efforts are found in Appendix A to Part 26.

DBELO is responsible for determining whether a bidder/offeror who has not met the contract goal has documented sufficient good faith efforts to be regarded as Responsible.

Van Wert County Airport Authority will ensure that all information is complete and accurate and adequately documents the bidder/offeror's good faith efforts before committing to the performance of the contract by the bidder/offeror.

In all solicitations for DOT-assisted contracts for which a contract goal has been established, the following information will be required of every bidder/offeror:

- (1) Award of the contract will be conditioned on meeting the requirements of this section;
- (2) All bidders or offerors will be required to submit the following information to the recipient, at the time provided in paragraph (3) of this section:
 - (i) The names and addresses of DBE firms that will participate in the contract;
 - (ii) A description of the work that each DBE will perform. To count toward meeting a goal, each DBE firm must be certified in a NAICS code applicable to the kind of work the firm would perform on the contract;

- (iii) The dollar amount of the participation of each DBE firm participating;
 - (iv) Written documentation of the bidder/offeror's commitment to use a DBE subcontractor whose participation it submits to meet a contract goal; and
 - (v) Written confirmation from each listed DBE firm that it is participating in the contract in the kind and amount of work provided in the prime contractor's commitment.
 - (vi) If the contract goal is not met, evidence of good faith efforts (as elaborated in Appendix A of Part 26). The documentation of good faith efforts must include copies of each DBE and non-DBE subcontractor quote submitted to the bidder when a non-DBE subcontractor was selected over a DBE for work on the contract; and
- (3) The bidder/offeror will be required to present the information stipulated in paragraph (2) of this section:

No later than 5 days after bid opening as a matter of **responsibility**.

Provided that, in a negotiated procurement, including a design-build procurement, the bidder/offeror may make a contractually binding commitment to meet the goal at the time of bid submission or the presentation of initial proposals but provide the information required by paragraph (2) of this section before the final selection for the contract is made by the recipient.

Administrative reconsideration

Within 7 days of being informed by Van Wert County Airport Authority that it is not responsible because it has not documented adequate good faith efforts, a bidder/offeror may request administrative reconsideration. Bidder/offerors should make this request in writing to the reconsideration official - airport manager. The reconsideration official will not have played any role in the original determination that the bidder/offeror did not document sufficient good faith efforts.

As part of this reconsideration, the bidder/offeror will have the opportunity to provide written documentation or argument concerning the issue of whether it met the goal or made adequate good faith efforts to do so. The bidder/offeror will have the opportunity to meet in person with the reconsideration official to discuss the issue of whether the goal was met or the bidder/offeror made adequate good faith efforts to do. The bidder/offeror will be sent a written decision on reconsideration, explaining the basis for finding that the bidder did or did not meet the goal or make adequate good faith efforts to do so. The result of the reconsideration process is not administratively appealable to the Department of Transportation.

Good Faith Efforts procedural requirements (post-solicitation)

The awarded contractor will be required to make available upon request a copy of all DBE subcontracts. The contractor shall ensure that all subcontracts or agreements with DBEs to supply labor or materials include all required contract provisions and mandate

that the subcontractor and all lower tier subcontractors perform in accordance with the provisions of Part 26.

Prime contractors will be prohibited from terminating a DBE subcontractor listed in response to a covered solicitation (or an approved substitute DBE firm) without the prior written consent of Van Wert County Airport Authority. This includes, but is not limited to, instances in which a prime contractor seeks to perform work originally designated for a DBE subcontractor with its own forces or those of an affiliate, a non-DBE firm, or another DBE firm.

Such written consent will be provided only if Van Wert County Airport Authority agrees, for reasons stated in the concurrence document, that the prime contractor has good cause to terminate the DBE firm. For purposes of this paragraph, good cause includes the following circumstances:

- (1) The listed DBE subcontractor fails or refuses to execute a written contract;
- (2) The listed DBE subcontractor fails or refuses to perform the work of its subcontract in a way consistent with normal industry standards. Provided however, that good cause does not exist if the failure or refusal of the DBE subcontractor to perform its work on the subcontract results from the bad faith or discriminatory action of the prime contractor;
- (3) The listed DBE subcontractor fails or refuses to meet the prime contractor's reasonable, non-discriminatory bond requirements.
- (4) The listed DBE subcontractor becomes bankrupt, insolvent, or exhibits credit unworthiness;
- (5) The listed DBE subcontractor is ineligible to work on public works projects because of suspension and debarment proceedings pursuant to 2 CFR Parts 180, 215 and 1,200 or applicable state law;
- (6) Van Wert County Airport Authority determined that the listed DBE subcontractor is not a responsible contractor;
- (7) The listed DBE subcontractor voluntarily withdraws from the project and provides Van Wert County Airport Authority written notice of its withdrawal;
- (8) The listed DBE is ineligible to receive DBE credit for the type of work required;
- (9) A DBE owner dies or becomes disabled with the result that the listed DBE contractor is unable to complete its work on the contract;
- (10) Other documented good cause that Van Wert County Airport Authority has determined compels the termination of the DBE subcontractor. Provided, that good cause does not exist if the prime contractor seeks to terminate a DBE it relied upon to obtain the contract so that the prime contractor can self-perform the work for which the DBE contractor was engaged or so that the prime contractor can substitute another DBE or non-DBE contractor after contract award.

Before transmitting to Van Wert County Airport Authority a request to terminate and/or substitute a DBE subcontractor, the prime contractor must give notice in writing to the

DBE subcontractor, with a copy to Van Wert County Airport Authority, of its intent to request to terminate and/or substitute the DBE, and the reason(s) for the request.

The prime contractor must give the DBE five days to respond to the prime contractor's notice and advise Van Wert County Airport Authority and the prime contractor of the reasons, if any, why the DBE objects to the proposed termination of its subcontract and why the prime contractor's action should not be approved. If required in a particular case as a matter of public necessity (e.g., safety), a response period shorter than five days may be provided.

In addition to post-award terminations, the provisions of this section apply to pre-award deletions of or substitutions for DBE firms put forward by offerors in negotiated procurements.

Each prime contract will include a provision stating:

The contractor shall utilize the specific DBEs listed in the contractor's bid to perform the work and supply the materials for which each is listed unless the contractor obtains prior written consent of Van Wert County Airport Authority as provided in 49 CFR Part 26, §26.53(f). Unless such consent is provided, the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE.

Van Wert County Airport Authority will require a contractor to make good faith efforts to replace a DBE that is terminated or has otherwise failed to complete its work on a contract with another certified DBE. These good faith efforts shall be directed at finding another DBE to perform at least the same amount of work under the contract as the DBE that was terminated, to the extent needed to meet the contract goal that was established for the procurement. The good faith efforts shall be documented by the contractor. If Van Wert County Airport Authority requests documentation from the contractor under this provision, the contractor shall submit the documentation within 7 days, which may be extended for an additional 7 days if necessary at the request of the contractor. Van Wert County Airport Authority shall provide a written determination to the contractor stating whether or not good faith efforts have been demonstrated.

If the contractor fails or refuses to comply in the time specified, the contracting office/representative of Van Wert County Airport Authority may issue an order stopping all or part of payment/work until satisfactory action has been taken. If the contractor still fails to comply, the contracting officer may issue a termination for default proceeding.

Section 26.55 Counting DBE Participation

DBE participation will be counted toward overall and contract goals as provided in §26.55. The participation of a DBE subcontractor will not be counted toward a contractor's final compliance with its DBE obligations on a contract until the amount being counted has actually been paid to the DBE.

In the case of post-award substitutions or additions, if a firm is not currently certified as a DBE in accordance with the standards of subpart D of this part at the time of the execution of the contract, the firm's participation will not be counted toward any DBE goals, except as provided for in §26.87(j).

Pursuant to Sec. 150 of the FAA Reauthorization Act of 2018, DBE firms certified with NAICS code 237310 that exceed the business size standard in § 26.65(b) will remain eligible for DBE credit for work in that category as long as they do not exceed the small business size standard for that category, as adjusted by the United States Small Business Administration.

SUBPART D – CERTIFICATION STANDARDS

Section 26.61 – 26.73 Certification Process

Van Wert County Airport Authority is a non-certifying member of the Ohio Unified Certification Program (UCP). Ohio UCP will use the certification standards of Subpart D of Part 26 to determine the eligibility of firms to participate as DBEs in DOT-assisted contracts. To be certified as a DBE, a firm must meet all certification eligibility standards. Certifying Ohio UCP members make all certification decisions based on the facts as a whole.

For information about the certification process or to apply for certification, firms should contact:

Ohio Department of Transportation
Ohio Unified Certification Program
c/o Office of Small and Disadvantaged Business Enterprise
Ohio Department of Transportation
1980 West Broad Street, MS 3270
Columbus, Ohio 43223

SUBPART E – CERTIFICATION PROCEDURES

Section 26.81 Unified Certification Programs

Van Wert County Airport Authority is the member of a Unified Certification Program (UCP) administered by Ohio. The UCP will meet all of the requirements of this section. See **ATTACHMENT 8.**

SUBPART F – COMPLIANCE AND ENFORCEMENT

Section 26.101 Compliance Procedures Applicable to Van Wert County Airport Authority

Van Wert County Airport Authority understands that if it fails to comply with any requirement of this part, Van Wert County Airport Authority may be subject to formal enforcement action under §26.103 or §26.105 or appropriate program sanctions by the concerned operating administration, such as the suspension or termination of Federal funds, or refusal to approve projects, grants or contracts until deficiencies are remedied. Program sanctions may include, in the case of the FHWA program, actions provided for under 23 CFR 1.36; in the case of the FAA program, actions consistent with 49 U.S.C. 47106(d), 47111(d), and 47122; and in the case of the FTA program, any actions permitted under 49 U.S.C. chapter 53 or applicable FTA program requirements.

Section 26.109 Information, Confidentiality, Cooperation and intimidation or retaliation

Information that may reasonably be regarded as confidential business information, consistent with Federal, state, and local law will be safeguarded from disclosure to third parties.

Notwithstanding any provision of Federal or state law, information that may reasonably be construed as confidential business information will not be released to any third party without the written consent of the firm that submitted the information, including applications for DBE certification and supporting information. However, this information will be transmitted to DOT in any certification appeal proceeding under §26.89 or to any other state to which the individual's firm has applied for certification under §26.85.

All participants in the Department's DBE program (including, but not limited to, recipients, DBE firms and applicants for DBE certification, complainants and appellants, and contractors using DBE firms to meet contract goals) are required to cooperate fully and promptly with DOT and recipient compliance reviews, certification reviews, investigations, and other requests for information. Failure to do so shall be a ground for appropriate action against the party involved (e.g., with respect to recipients, a finding of noncompliance; with respect to DBE firms, denial of certification or removal of eligibility and/or suspension and debarment; with respect to a complainant or appellant, dismissal of the complaint or appeal; with respect to a contractor which uses DBE firms to meet goals, findings of non-responsibility for future contracts and/or suspension and debarment).

Van Wert County Airport Authority, contractor, or any other participant in the program will not intimidate, threaten, coerce, or discriminate against any individual or firm for the purpose of interfering with any right or privilege secured by this part or because the

individual or firm has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. Van Wert County Airport Authority understands that it is in noncompliance with Part 26 if it violates this prohibition.

Overall Goal Calculations and Methodology

VAN WERT COUNTY AIRPORT FEDERAL FISCAL YEARS 2020, 2021, 2022

Overall Goal:

The Van Wert County Airport Authority (Sponsor) overall goal for the following time period (October 1, 2019 to September 30, 2022) of 7.3% percent of the Federal financial assistance, excluding land costs, will be expended in DOT-assisted contracts.

The Sponsor expects to let with estimated dollar amounts during this fiscal time period the following project(s):

ANTICIPATED PROJECTS				
Project	Services			Overall
	Construction / Equipment	Professional	Land	
Master Plan	\$ -	\$ 309,500.00	\$ -	\$ 309,500.00
Runway 9/27 Extension Environmental and Design	\$ -	\$ 265,000.00	\$ -	\$ 265,000.00
Fiscal Year Total	\$ -	\$ 574,500.00	\$ -	\$ 574,500.00
Percent of Overall Total	0%	100%	0	100.00%

This means a goal has been set expending \$41,939 with DBEs during this fiscal time period.

Method (Section 26.45 of 49 CFR Part 26)

Because of the type of work evaluated in this program it is reasonable to expect the market is statewide. The data source or demonstrable evidence used to derive the numerator referenced both 237 and 541330 NAICS codes here:

<http://www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/DBE-Directory.aspx>

All data was corrected to reflect only DBE's doing business in the entire State not just limited to a smaller district, multiple company listings were only counted once, and the counting did not include ACDBE's.

The data source or demonstrable evidence used to derive the denominator are found in 2012 Census NAICS codes 23 and 54 for Ohio here:

<https://www.census.gov/programs-surveys/economic-census/data/tables.html>

Ohio	237	Heavy and civil engineering construction	2012	954
------	-----	--	------	-----

Ohio	54133	Engineering services	All establishments	2012	1,730
------	-------	----------------------	--------------------	------	-------

When we divided the numerator by the denominator we arrived at the base figure for our overall goal as follows:

Step 1 - Calculate Base Figure (BF):

$$BF = \left[\frac{\text{Construction \% of Project} \times \frac{\text{Ready, willing and able DBE construction firms}}{\text{All construction firms ready, willing and able}} + \text{Professional Services \% of Project} \times \frac{\text{Ready, willing and able DBE professional services}}{\text{All professional services firms ready, willing and able}} \right] \times 100$$

$$BF = \left[0.00 \times \frac{68}{954} + 1.00 \times \frac{126}{1,730} \right] \times 100$$

$$BF = 7.3\%$$

The above multipliers inside the brackets can be found in the “Percent of Overall Total” row in the previous Anticipated Projects. Professional Services generally include the costs for planning, design, construction observation, material testing and soft costs associated with land acquisition.

The above multipliers inside the brackets can be found in the “Percent of Overall Total” row in the previous Anticipated Projects. Professional Services generally include the costs for planning, design, construction observation, material testing and soft costs associated with land acquisition.

Step 2 – Adjust BF:

After calculating a base figure of the relative availability of DBEs, evidence was examined to determine what adjustment was needed to the base figure in order to arrive at the overall goal.

Reliable historical data was not available in sufficient quantity to establish an average to apply to the BF with any statistical dependability.

We therefore choose to utilize the BF as the Overall Goal and will track reliability over a period of years. Should we reach a point where a reliable set of data points using actual accomplishments, we will derive a mean and apply it to future calculation of the BF.

Breakout of Estimated “Race and Gender Neutral” (RN) and “Race and Gender Conscious” (RC) Participation.

Van Wert County Airport Authority will meet the maximum feasible portion of the overall goal by using RN means of facilitating DBE participation. Efforts may include:

1. Arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitates DBE, and other small businesses, participation;
2. Providing assistance in overcoming limitations such as inability to obtain bonding or financing;
3. Providing technical assistance and other services;
4. Carrying out information and communications programs on contracting procedures and specific contract opportunities;
5. Implementing a supportive services program to develop and improve immediate and long-term business management, record keeping, and financial and accounting capability for DBEs and other small businesses;
6. Providing services to help DBEs and other small businesses improve long-term development, increase opportunities to participate in a variety of kinds of work, handle increasingly significant projects, and achieve eventual self-sufficiency;
7. Establishing a program to assist new, start-up firms, particularly in fields in which DBE participation has historically been low;
8. Ensuring distribution of DBE directory, through print and electronic means, to the widest feasible universe of potential prime contractors;
9. Assist DBEs and other small businesses, to develop their capability to utilize emerging technology and conduct business through electronic media; and

Van Wert County Airport Authority estimates that in meeting the established overall goal of 7.3%, it will obtain 7.3% from RN participation and 0.0% through RC measures.

Van Wert County Airport Authority will adjust the estimated breakout of RN and RC DBE participation as needed to reflect actual DBE participation [see §26.51(f)] and track and report RN and RC participation separately. For reporting purposes, RN DBE participation includes, but is not necessarily limited to the following: DBE participation through a prime contract obtained through customary competitive procurement procedures; DBE participation through a subcontract on a prime contract that does not carry a DBE goal, DBE participation on a prime contract exceeding a contract goal, and DBE participation through a subcontract from a prime contractor that did not consider a firm’s DBE status in making the award.

PUBLIC PARTICIPATION

Consultation:

In establishing the overall goal, Van Wert County Airport Authority provided for consultation and publication. This process included consultation with minority, women's, and general contractor groups, community organizations, and other officials or organizations which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses, the effects of discrimination on opportunities for DBEs, and the Van Wert County Airport Authority efforts to establish a level playing field for the participation of DBEs. The consultation included a scheduled, direct, interactive exchange with as many interested stakeholders as possible focused on obtaining information relevant to the goal setting process, and was conducted before the goal methodology was submitted to the operating administration for review. Details of the consultation are as follows.

The consultation engaged in was a face-to-face meeting, which was held at a regularly scheduled monthly Board meeting.

The following comments were received during the course of the consultation:
No comments were received.

A notice of the proposed goal was published on the Van Wert County Airport Authority official website before the methodology was submitted to FAA as follows:

The Van Wert County Airport Authority hereby announces the intended adoption of their proposed Disadvantaged Business Enterprise goal of 7.3% for the 2020-2022 plan year beginning October 1, 2019. The goal methodology and plan can be reviewed at the Airport, and any comments submitted prior to August 1, 2019 in writing to:

Airport Manager
1400 Leeson Avenue
Van Wert, OH 45891

United States Department of Transportation
Federal Aviation Administration
Great Lakes Region - Civil Rights Staff
2300 East Devon Avenue
Des Plaines, Illinois 60018

If the proposed goal changes following review by FAA, the revised goal will be posted on Van Wert County Airport Authority official website.

Notwithstanding paragraph (f)(4) of §26.45, Van Wert County Airport Authority proposed goals will not be implemented until this requirement has been met.

Demonstration of Good Faith Efforts - Forms 1 & 2

FORM 1: DISADVANTAGED BUSINESS ENTERPRISE (DBE) UTILIZATION

The undersigned bidder/offeror has satisfied the requirements of the bid specification in the following manner:

- Bidder/offeror has met the DBE contract goal
The bidder/offeror is committed to a minimum of _____ % DBE utilization on this contract.

- Bidder/offeror has not met the DBE contract goal
The bidder/offeror is committed to a minimum of _____ % DBE utilization on this contract and has submitted [*or "will submit," if recipient made compliance a matter of responsibility*] documentation demonstrating good faith efforts.

Legal name of bidder/offeror's firm: _____

Bidder/Offeror Representative:

Name & Title

Signature

Date

FORM 2: LETTER OF INTENT

Bidder/Offer Name: _____
 Address: _____
 City: _____ State: _____ Zip: _____
 IRS Number: _____
 Contact Name: _____, Telephone No.: _____

(Following shall be submitted for each firm)

Was the following firm selected by lowest bid? (check one) Yes: ___ No: ___

Firm: Name: _____
 Address: _____
 City: _____ State: _____ Zip: _____

Contact Person: Name: _____ Phone: () _____

What is the Age of Firm? _____

Firms annual Gross Receipts? <\$500,000 \$500,000 - \$1Mill. \$1 - \$2 Mill. \$2 - \$5 Mill.

Is firm a Small Business Enterprise (SBE)? (check one) Yes: ___ No: ___

Is firm a Disadvantaged Business Enterprise (DBE)? (check one) Yes: ___ No: ___

Classification: Prime Contractor Subcontractor Joint Venture
 Manufacturer Supplier

Work item(s) to be performed by Firm	Description of Work Item	Quantity	Total

The bidder/offeror is committed to utilizing the above-named firm for the work described above. The estimated participation is as follows:

Firm's contract amount: \$ _____ Percent of total contract: _____%

AFFIRMATION:

The above-named firm affirms that it will perform the portion of the contract for the estimated dollar value as stated above.

By: _____
 (Signature) (Title) Following for DBE Only

DBE Certifying Agency: _____ Expiration Date: _____ <i>Each DBE Firm shall submit evidence (such as a photocopy) of their certification status</i>

Note: In the event the bidder/offeror does not receive award of the prime contract, any and all representations in this Letter of Intent and Affirmation shall be null and void.

Submit this page for each DBE subcontractor.

ATTACHMENT 7

DBE Monitoring and Enforcement Mechanisms

The Van Wert County Airport Authority has available several remedies to enforce the DBE requirements contained in its contracts, including, but not limited to, the following:

1. Breach of contract action, pursuant to the terms of the contract.
2. Breach of contract action, pursuant to Ohio Code.

In addition, the Federal government has available several enforcement mechanisms that it may apply to firms participating in the DBE problem, including, but not limited to, the following:

1. Suspension or debarment proceedings pursuant to 49 CFR Part 26
2. Enforcement action pursuant to 49 CFR Part 31
3. Prosecution pursuant to 18 USC 1001.

Commercially Useful Function (CUF) Log

We have monitored all DBE program participants (including professional services) to ensure they are complying with 49 CFR Part 26 and that work performed by the DBE is the work that has been committed to and we have reviewed contracting records and monitored work/sites for this purpose.

We have determined that each DBE has performed a commercially useful function (CUF) per 26.55(c) by identifying their scope of work, observations of the DBE performing work on the work site with its own resources, and recorded the information in the log below.

Monitoring will take place throughout the project not just at close out, and begin early in the process to allow for identification and correction of any compliance issues detected.

Project: _____

**U.S. Department of
Transportation**
Office of the Secretary
of Transportation

GENERAL COUNSEL

400 Seventh St. S.W.
Washington, D.C. 20590

April 25, 2005

Mr. Mark G. Kelsey, Esq.
Deputy Director
Division of Contract Administration
Ohio Department of Transportation
Central Office
1980 W. Broad Street, 1st Floor
P.O. Box 899
Columbus, Ohio 43216-0899

Dear Mr. Kelsey:

The U.S. Department of Transportation (DOT) has reviewed the unified certification program (UCP) you submitted to us on behalf of the State of Ohio. Your most recent submission has satisfactorily incorporated our earlier comments regarding the receipt of outstanding recipient signatures.

Consequently, I am approving the Ohio UCP as provided by the Department's disadvantaged business enterprise (DBE) regulations (49 CFR §26.81(a)(4)). You may begin unconditional implementation of the UCP based on this approval.

Please remember that any inconsistency or ambiguity in the UCP agreement must be resolved by giving precedence to the following in this order: 49 CFR 26/23, USDOT Directives, the DBE Program as approved by DOT and applicable Ohio regulations.

DOT looks forward to working with you as you implement the UCP.

Sincerely yours,

Jeffrey A. Rosen
General Counsel

ATTACHMENT 9

Small Business Element

An element to structure contracting requirements has been created to facilitate competition by small business concerns per 49 CFR Part 26.39, taking all reasonable steps to eliminate obstacles to their participation, including unnecessary and unjustified bundling of contract requirements that may preclude small business participation in procurements as prime contractors or subcontractors. For clarification purposes, 49 CFR Part 26.5 states, “*Small business concern* means, with respect to firms seeking to participate as DBEs in DOT-assisted contracts, a small business concern as defined pursuant to section 3 of the Small Business Act and Small Business Administration regulations implementing it (13 CFR part 121) that also does not exceed the cap on average annual gross receipts specified in §26.65(b).” 13 CFR 121.402 defines “What size standards are applicable to Federal Government Contracting programs”

1. Objective/Strategies

- (1) Prime contracts under \$1 million will be set-aside for small businesses. Only those firms meeting the definition of a small business, as described below, will be eligible for award of these contracts.
- (2) In multi-year design-build contracts or other large contracts (e.g., for “megaprojects”) requiring bidders on the prime contract to specify elements of the contract or specific subcontracts that are of a size that small businesses, including DBEs, can reasonably perform.
- (3) On prime contracts not having DBE contract goals, requiring the prime contractor to provide subcontracting opportunities of a size that small businesses, including DBEs, can reasonably perform, rather than self-performing all the work involved.
- (4) Identifying alternative acquisition strategies and structuring procurements to facilitate the ability of consortia or joint ventures consisting of small businesses, including DBEs, to compete for and perform prime contracts.
- (5) To meet the portion of your overall goal you project to meet through race-neutral measures, ensuring that a reasonable number of prime contracts are of a size that small businesses, including DBEs, can reasonably perform.

2. Definition

- DBE firms should be identified in the Small Business element of the recipient’s DBE program as eligible for the program unless there is a DBE micro-Small Business Program element in place.
- Size standard should be consistent with 49 CFR 26.5 and must be no larger than the Small Business Administration’s size standards. DBE firms and small firms eligible for the program should be similarly sized to reduce competitive conflict between DBE and non-DBE firms.

- Personal Net Worth standards (optional) – should be consistent with 49 CFR Part 26 thresholds.
- Definitions must clearly state that all businesses meeting the criteria outlined in this element will be considered to be small businesses, without regard to race or gender.

3. Verification

Van Wert County Airport Authority will diligently attempt to minimize fraud and abuse in the small business element of its DBE program by verifying program eligibility of firms by consulting with the closest Small Business Development Center network office.

4. Monitoring/Record Keeping

- A list of small businesses will be kept on file for a minimum of 3 years from the time of bid.
- The list will be referenced in cases where there may have been opportunity for small business participation and contact made with eligible firms for bidding opportunities.

5. Assurance

1. The program is authorized under state law;
2. Certified DBEs that meet the size criteria established under the program are presumptively eligible to participate in the program;
3. No limits are placed on the number of contracts awarded to firms participating in the program, but every effort will be made to avoid creating barriers to the use of new, emerging, or untried businesses; and
4. Aggressive steps will be taken to encourage those minority and women owned firms that are eligible for DBE certification to become certified.
5. The program is open to small businesses regardless of their location (i.e., there is no local or other geographic preference).
